Year 6 Residential

Year 6 enjoyed their residential trip to PGL. They engaged in a range of adventurous activities including climbing, sensory trail, zipwire, tunnel trail and raft building.

It was great to see the children challenging themselves, developing independence and working as a team. All of the children demonstrated our school values throughout the trip and represented themselves and the school brilliantly. Staff said that it was a pleasure to spend time with them and see them enjoying themselves. The PGL trip is always a special milestone in Year 6, and this year's group truly made it one to remember.

A huge thank you to all the staff who organised the Year 6 residential and accompanied the children to PGL as it takes careful planning and time.

Jubilee Park Development

Two local Parish Councillors recently visited the school to talk to the children about their ideas for the development of Jubilee Park. The children were asked to share what they thought would be exciting projects, which would appeal to older children. The councillors were very impressed with the thoughtful and creative ideas the children generated. Then the children were challenged to prioritise their ideas, using stickers to show which was their most and least favourite ideas. Hopefully, if the Parish Council secure the funding required, some of the children's ideas may well become reality for the children of Deeping to enjoy into the future.

Year 3

Year 3 have been inspired by the book *The Lost Happy Endings*. As in the book, we have written our own endings for the witch and published them in gold pen, just like the main character Jub! We have some fantastic authors in Year 3!

Year 6 Pop Up Restaurant

Since finishing their SATs, Y6 have been busy working on a real-life project. The goal was to organise and run a pop-up restaurant, for one evening, for their parents.

The children measured the hall and tables before creating a seating plan for 80 people. They applied their understanding of ratio and proportion to upscale recipes before researching and calculating the cost of the ingredients, including considering the most effective way of purchasing the products. They also created table number cards, signs and chocolate gift boxes which they decorated and filled with homemade truffles.

The children then became chefs, chopping and preparing all the ingredients before cooking a chilli and making cheesecake. On the night, they ran the restaurant, from setting the tables and welcoming the guests to serving the 3-course meal and clearing the tables. The restaurant was an amazing success -well done Year 6!

Happy Retirement

We are both happy and sad to announce the upcoming retirement of two of our wonderful teaching assistants, Mr Sedgwick & Mrs Turner, at the end of this term. They have been an invaluable part of Linchfield School's community for many years, supporting both children and staff with dedication, kindness, and a deep commitment.

Throughout their time at Linchfield School, they have both made a lasting impact on countless children - helping them grow in confidence, supporting their learning journeys, and always offering a friendly smile and a helping hand.

We are incredibly grateful for everything they have contributed to our school and we will miss them greatly. We wish them a happy, healthy, and well-deserved retirement.

Please join us in celebrating Mr Sedgwick and Mrs Turner's wonderful career and all that they have given to our school.

Year 4 Residential

Year 4 had an amazing experience on the Year 4 Residential to Rutland Outdoor Education Centre. For many of the children it was their first experience of camping and sleeping in a bell tent. The children also had the opportunity to explore a working farm through orienteering and socialise with many of the farm animals; Oreo and Mrs Piggy being firm favourites! Essential life skills were also learnt in the form of lighting fires, recognising different plants and their properties and learning how to repack your bag and sleeping bag! It was a pleasure to see the children exploring and enjoying themselves.

Story Corner Magazine

The children have been given the latest edition of the wonderful story corner magazine.

This is provided by the reading charity Bookmark and is packed full of stories, games and activities for you to enjoy sharing with your child. There is a drawing competition too! This month, the focus is on the amazing life in our oceans and seas and there are lots of fascinating facts. Did you know a colossal squid has a brain the shape of a doughnut?
